

MEGAWATT Exhibition & Conference Announces New Dates: October 21–22, 2025

[Milan/Bergamo, 30 May, 2025] – *MEGAWATT Exhibition & Conference*, the international event dedicated to the entire energy supply chain, is pleased to announce its **new official dates: October 21–22, 2025**, at the **Milan Bergamo Exhibition Center**.

This decision follows a period of intense work behind the scenes, during which the MEGAWATT team has been focused on **developing strategic partnerships with key institutions and industry-leading companies**. These collaborations will play a central role in shaping the 2025 edition and will be officially unveiled in the coming weeks.

We are working to deliver an event that is both authoritative and impactful for the energy sector.

The new dates will allow us to present an even stronger platform for innovation, dialogue, and business development across the full energy value chain — from power generation to smart grids, from hydrogen and storage to digitalization and advanced manufacturing.

Stay tuned as we prepare to reveal new high-profile speakers, strategic sponsors, and headline partners — all contributing to an unmissable event that will define the energy agenda for years to come.
